

## **Boot Camp Disk Contents**

### **Essentials** (using XP, but Concepts applicable to Vista)

14 videos on topics: Mouse, Windows, Shortcuts, Save vs Save As, Cut, Copy, Paste, Documents, Pictures, Music, Web basics 1 & 2, Tabbed Browsing.

Everyone should go thru these videos, if only for review!

### **Vista**

14 videos on topics: Versions, Aero, Icons, Search, Sleep and Shutdown, Sidebars, Explore, Navigate, Burning CDs, Backup, Windows Mail, Photo Gallery, Speech Recognition, Performance.

Everyone who uses Vista should watch these once through.

### **Boot Camp Demos**

These videos are meant to demonstrate the exercises written in the Bootcamp workbook. Watch them as you get to that point in the workbook and need the 'answer.' Computer specs, Saving Files, Connect to Wi-Fi, Webmail, File management, Email attached files, Backup to USB, Email BCC, Security Center, Disk Cleanup

### **Connecting to the Internet**

A few videos on how to connect to Wi-Fi hotspots and a few other topics of interest regarding connecting to the Internet while traveling

### **Safe Computing**

A few videos related to computer maintenance and security.

### **Also on Disk:**
